

**Notice to
City of Altamont Water Customers**

Beginning July 8th, the City of Altamont will be conducting cleaning, painting & maintenance of the water tower exterior. During the process customers may notice a taste and odor of chlorine created by a necessary additional water treatment process. If water customers experience discolored water or a change in water pressure they are asked to contact the City office at 618-483-5212 or evenings and weekends at 618-483-6370.

Your patience and cooperation is appreciated during the progress of improving the City water tower appearance.
